7	<p>Brief report of the event (Please describe the objectives of the event and benefit (impact) to students, teachers, patients, or society)</p> <p>A free Medical Camp was arranged on 23rd March 2025 (Sunday) in Ambedkar Community Hall, Goliyadka, Badiyadka, and Kerala. The primary objective of this free medical camp was to provide essential healthcare services to the general public, particularly focusing on eye health, blood sugar monitoring, and providing consultations for common ailments. The camp aimed to reach individuals who may not have easy access to healthcare facilities, ensuring they receive necessary medical attention and support. Total 54 patients were beneficiary of Ayurveda Treatment. A team of doctors, nurses, and interns assisted in the execution of the camp. The team included specialists in Kayachikitsa, Shalakya and other relevant fields to ensure comprehensive care for the participants. Participants received free eye screenings to detect any vision problems or related health concerns. Free blood sugar testing was conducted to screen for diabetes and help individuals monitor their health. General medical consultations were provided for various health issues, including but not limited to diabetes, hypertension, and skin disorders. Free Spectacles were distributed to individuals identified with vision impairment during the eye check-ups. Blood sugar screening and advice were provided to those with high blood sugar levels, offering guidance</p>	

	<p>for management and prevention. Blood pressure monitoring and consultations were offered to individuals with elevated blood pressure, along with recommendations for lifestyle changes. Participants suffering from joint pain were given medical advice and Ayurveda treatment. Patients with skin conditions were diagnosed and prescribed suitable Ayurveda treatments. General medical concerns were addressed in the camp. The successful execution of the medical camp was made possible through the support of the following partners and sponsors like Rotary Club Deralakatte, Sadhashiva Shetty Abhimanigala Balaga, Goliyadka. This camp was successful in achieving the objectives and in reaching a wider audience for health services.</p>		
8	Outcome of the Event	<p>54 patients were successfully screened, diagnosed, and treated during the camp. The free eye check-ups and blood sugar tests identified multiple individuals with health conditions that required further attention. Free spectacles were distributed to several individuals with vision impairments, providing immediate relief and improving quality of life. A positive impact was made by addressing common health issues such as hypertension, joint pain, and pediatric ailments. The medical camp received positive feedback from participants, with many expressing gratitude for the free services provided. Participants highlighted the benefit of having immediate access to healthcare professionals and medical consultations, especially those who had been struggling with chronic health conditions. Many mentioned that the distribution of free spectacles was particularly appreciated by those who could not afford eye care.</p>
