7	<p><b>Brief report of the event:</b> To promote awareness about the importance of medicinal plants and to encourage sustainable practices among the younger generation, a School Herbal Garden Project was conducted at five Govt. Residential Schools. The initiative was aimed at educating high school students on the significance of herbal plants in daily life and supporting the establishment of herbal gardens within school premises. An informative and interactive talk delivered by Dr Asha Maradka, Dr Anju C, &amp; Dr Srilakshmi G V, highlighting the uses, identification, and benefits of common medicinal plants such as Tulsi, Brahmi, Aloe vera, Lemongrass, Neem etc.</p> <p>Students were introduced to the concept of traditional herbal healing systems and how these plants contribute to health, immunity, and sustainable living.</p> <p>Emphasis was placed on the need to preserve indigenous plant knowledge and integrate it into everyday life.</p>		
8	Outcome of the event	<p>Students gained practical knowledge about medicinal plants and their importance in health and wellness.</p> <p>Schools were equipped to start or enhance their own herbal gardens, serving as living laboratories for experiential learning.</p> <p>The event fostered a sense of responsibility towards nature and inspired young minds to become ambassadors of sustainable practices.</p>	
9	<p>Number of beneficiaries (Attach copy of the attendance sheet)</p>	Students	500
		Teachers	70
		Others (specify)	Nil
